## **CLAIMS 1-33 AND 37-53 ARE PRESENTED FOR**

### **EXAMINATION**

Applicants' arguments filed July 1, 2004 have been fully considered but they are not persuasive.

Applicants' argue that U.S. Patent reference 6,344, 476 fails to identify halogen for Group 72) Claims - Drawn to a composition for promoting thermogene in mammals, comprising effective amounts of R<sup>2</sup> group on the thienyl or furyl group standing for B of this reference. However, applicants' claim 1 clearly recites "wherein if B is a substituted group, ". This renders applicants' claim 1, when read in its broadest sense, obvious in view of the cited reference since as the claim reads, the claimed compounds do not have to be halogenated. Claim 1 of the reference is therefore obvious over the cited reference.

Applicants' claim 1 defines A and B similarly and the addition of a halogen would need to be incorporated in all the claimed radicals since as claimed by applicants' claim 1, non-halogenated compounds are within the scope of applicants' claims in both the reference and applicants' claims.

The applicants argue that the mere overlap in the broadest disclosure is seldom adequate for a proper obvious rejection. This argument is not understood by the examiner since applicants' claims 7 and 11, for example, contain species of none halogenated compounds within the generic claim 1 of the reference.

The double Patenting rejection of April 1, 2004 is deemed proper and is maintained.

None of the claims are allowed.

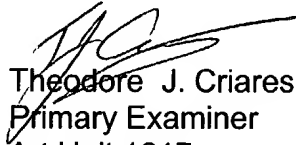

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
